

2025 POST

NDIA

Pacific Operational Science & Technology Conference

Together We Prevail

POST FIELD EXPERIMENTATION

MARINE CORPS BASE, KANEOHE HI
MARCH 7, 2025

We invite technology developers to submit their capabilities for demonstration as part of the annual POST Field Experimentation event. New for POST FX 2025, ALL demonstrations must engage in some meaningful way with the operational environment provided by POST FX (i.e. air, land, sea) to advance autonomy and autonomous systems in support of these principal innovation priorities: Counter-C5ISR, Air/Land/Maritime Domain Awareness, Joint Command and Control, Contested Logistics, and Humanitarian Assistance/Disaster Response. Proposers may also submit demonstration requests against any of the general innovation priorities identified by OUSD R&E listed below.

We also invite all POST attendees from academia, government, commercial industries, and investment firms to join us at POST FX and meet with the defense innovation community!

Biotechnology
Quantum Science
Future G Wireless Technology
Advanced Materials
Trusted AI and Autonomy
Integrated Network Systems-of-Systems
Integrated Sensing & Cyber

Microelectronics
Space Technology
Renewable Energy & Storage
Advanced Computing & Software
Human-Machine Interfaces
Directed Energy
Hypersonics
